## HBFD COOKING SAFETY

As we prepare for the holiday season and festivities, Huntington Beach Fire Department would like to remind everyone of a few fire safety tips. It is important to be safe when cooking. Please see the following flyers for tips on on Thanksgiving and kitchen safety. If you plan to fry a turkey, check out this [YouTube](#) video by HBFD.

# Thanksgiving Safety

The kitchen is the heart of the home, especially at Thanksgiving. Kids love to be involved in holiday preparations. Safety in the kitchen is important, especially on Thanksgiving Day when there is a lot of activity and people at home.

- Stay in the kitchen when you are cooking on the stovetop so you can keep an eye on the food.
- Stay in the home when cooking your turkey and check on it frequently.
- Keep children away from the stove. The stove will be hot and kids should stay 3 feet away.
- Make sure kids stay away from hot food and liquids. The steam or splash from vegetables, gravy or coffee could cause serious burns.
- Keep the floor clear so you don't trip over kids, toys, pocketbooks or bags.
- Keep knives out of the reach of children.
- Be sure electric cords from an electric knife, coffee maker, plate warmer or mixer are not dangling off the counter within easy reach of a child.
- Keep matches and utility lighters out of the reach of children — up high in a locked cabinet.
- Never leave children alone in room with a lit candle.
- Make sure your smoke alarms are working. Test them by pushing the test button.

## Did you know?

Thanksgiving is the leading day of the year for home fires involving cooking equipment.

**Have activities** that keep kids out of the kitchen during this busy time. Games, puzzles or books can keep them busy. Kids can get involved in Thanksgiving preparations with recipes that can be done outside the kitchen.

# Prevent KITCHEN FIRES

## Safety Tips for the Kitchen

Use a timer so you'll remember that the stove or range is on, and be sure to turn it off as soon as you're finished cooking.

**Never leave a hot range top unattended.** If you're called away from the kitchen for any reasons, turn it off until you return.

Clean your cooking surfaces often being sure to remove crumbs, grease, and other food debris.

**Never place anything flammable on or near your range.** Items such as wooden utensils, oven mitts, and food packaging can quickly ignite starting a kitchen fire.

**Plug all appliances directly into electrical outlets.** Don't use extension cords.

**Inspect all appliance power cords** prior to use. Replace them if they become frayed.

**Be sure to unplug small appliances,** including mixers and toasters, when not in use.

**Learn how to use a fire extinguisher.** Keep one in your kitchen and check it often to ensure it's charged.

**Never douse a grease fire with water, as this will only spread the flames.** Instead, cover any burning pans with a lid, turn off the burner, and let it cool until the fire burns out.

**Always check the kitchen before going to bed or leaving home to ensure your stove and range are turned off.**

**Install smoke alarms near your kitchen (with CO if you run gas appliances).** Smoke alarms save lives!

## EVERGREEN TREE OF LIFE LEGACY DONOR PROGRAM

On Wednesday, November 3, the Senior Center in Central Park unveiled a new sponsor recognition initiative—the Evergreen Tree of Life Legacy Donor Program. Donors, HBCOA board members, City dignitaries, and center staff gathered together to honor the many who have provided for the expansion of senior services at the new Senior Center.

The program celebrates donors who have been steadfast providers since the opening of the Senior Center in Central Park five years ago, as well as pave the way for a continued future of aging with dignity, innovative programming, and exceptional services to the community.

This new annual giving legacy campaign allows donors to engage with the center on a direct level and donate funds for programming and services. Senior Services provides tremendous support and essential services to the community and many gracious donors recognize that value. As part of the campaign, donors are recognized at annual giving levels starting at \$1,000 and with distinguishing levels for each \$5,000 increment thereafter. Annual donations allow for new and inventive programming to be provided at the center as well add sustaining programs such as care management, home delivered meals, and the Surf City Seniors On the Go program.

Each level of giving is provided with benefits to use at the center, such as a three month gym membership, tickets to concerts or dances, day trips, or invitations to the annual Seashells and Jingle Bells winter gala, as well as a leaf on the tree of Life at the Senior Center. Donors who have reached a lifetime giving of \$25,000 or more receive permanent recognition on the wall for their efforts in furthering senior services and aging with dignity and independence in the community.

## HBPd PARTNERS WITH LOCAL POLICE AGENCIES TO HOST A FREE CATALYTIC CONVERTER ETCHING EVENT ON NOVEMBER 13

On Saturday, November 13, the Huntington Beach Police Department will cohost a catalytic converter etching event with Costa Mesa and Newport Beach Police Departments. The event will be held from 9 a.m. to 1 p.m. at ExperTec Automotive, located at 7680 Talbert Avenue in Huntington Beach. Etching will be performed for free on a first come, first served basis.

Catalytic converter theft is on the rise in Orange County. Having your catalytic converter etched not only deters criminals from stealing it, but also allows law enforcement to press charges in the event your catalytic converter is stolen and recovered. The HBPd recommends the following to prevent catalytic converter theft:

- Park your vehicle in your garage/driveway, if possible.
- Park your vehicle near your residence.
- Park your vehicle in a well-lit area.
